San Mateo, Rizal | johnvincelopez811@gmail.com | +63 976 423 6545

PROFESSIONAL SUMMARY

Junior Developer with experience in full-stack development using React, PHP, MySQL, and Firebase. Skilled in developing web and mobile applications, RESTful APIs, and user-focused interfaces. Experienced in Agile development, system testing, and collaborative software projects.

TECHNICAL SKILLS

Languages: JavaScript, PHP, HTML, CSS
Frameworks: React.js, React Native, Flutter
Databases: MySQL, Firebase
Tools: Visual Studio Code, Android Studio, Figma, Canva, Git, GitHub
Other Skills: REST API Development, UI/UX Design, System Testing, Agile Development

WORK EXPERIENCE

- Isometric Diagonal Scheme Inc. | GIZA Steel**
- System Analyst Intern** **August 2025 - November 2025**
 - Designed Help Desk UI prototype using Figma for system layout and user flow.
 - Developed Help Desk documentation system using Visual Studio and Sphinx.
 - Managed documentation and applied version control using Confluence and Git tools (SourceTree/Gitea), collaborating with team members to complete system requirements.
 - Quality Assurance Intern** **November 2025 - December 2025**
 - Performed system testing to identify bugs, errors, and format issues.
 - Created and managed bug tickets in Jira for tracking and reporting.
 - Re-tested resolved tickets and validated outputs using Matcad.

EDUCATION

Bachelor of Science in Information Technology
Technological Institute of the Philippines – Quezon City
Graduated: June 2026

PROJECTS

- SUMBONG: System for Urgent Monitoring of Bullying, Offenses, and Notable Grievances using Naive Bayes Algorithm (Capstone Project)**
- Led the development of a web and mobile incident reporting system using React and Firebase.
 - Implemented the Naive Bayes algorithm for the classification of user-submitted reports.
 - Integrated the classification feature into the system for automated report categorization.
- FloraLane: E-Commerce Website and Mobile App for Online Flower Ordering**
- Led the development of an e-commerce platform using PHP and MySQL.
 - Implemented product customization and ordering features.
 - Integrated payment functionality for transactions.

CERTIFICATIONS

- Cybersecurity: SQL Injection & Brute Force Defense — Technological Institute of the Philippines – Quezon City (April 17, 2024)
- Data Analytics — Erovoutika Robotics and Automation Solutions (February 4, 2024)
- Python Programming Applications — Erovoutika Robotics and Automation Solutions (February 4, 2024)
